### Introduction

Student assessment outcomes occur throughout the year, although the majority appear at the end of each academic year in the Easter term. Assessment outcomes both the Class and Paper marks are generally published together but occasionally the overall Class (or pass/fail) is published prior to the individual paper/module marks.

This guide aims to help colleges understand the how the data is added to CamSIS and offers some suggestions for extracting it for college use.

### Timing

Exam	Approx. publication
2 <sup>nd</sup> MB and 2 <sup>nd</sup> Vet MB (first sittings and re-sits)	Termly
Advanced Diploma in Theology and Religious Studies	June
Bachelor of Theology for Ministry (BTh)	June

All of the lists above are published to Colleges, except the Master of Philosophy (MPhil) and Master of Research (MRes) courses.

## Terminology and coding

Phrase	Explanation
Class List	<p>A published list of students outcome, broken down by class, usually Class I, Class II (divided between division i and division ii) and Class III.</p> <p>The type of list (Classed, pass etc) is determined by the regulations for each examination. These are set out in Statutes &amp; Ordinances.</p> <p>The phrase is also used when a list is pass/fail only, or honours pass in the case of lists such as Engineering IIB.</p>
Grade Roster	<p>This is a table in CamSIS where result and mark data is recorded, once posted this data becomes visible on the student record.</p> <p>A grade roster is created for every paper where enrolments exist, irrespective of the type of assessment (this means that grade rosters exist for coursework and practicals etc., not just where there is a written exam).</p> <p>In addition to each paper / module having a Grade Roster, there is also a RESULT Grade Roster. This RESULT component is where the overall class / pass is recorded, alongside the overall mark and ranking where supplied.</p> <p>Departments download the grade roster into excel to populate with marks, then upload it back into CamSIS.</p>
List of Successful Candidates	<p>Used where a list is published, but is pass / fail and not broken down into Class. Not commonly used, these are usually still referred to as class lists.</p>
Class List Opt Out	<p>Previously examination results were displayed at the Senate House and published in The Reporter (in print and online). The inclusion of your name was optional, the Opt Out was a facility to decide their publication choice via CamSIS. <i>No longer used following the result of the ballot on Grace 2 of 29 July 2021 (discontinuation of the public display of class lists) which now prohibits such display or publication.</i></p>

Classes in CamSIS are displayed using coding. A full set of codes and their meaning is contained in the CamSIS document 'J01 Grading Codes' found here.

ALP	Allowed Leave to progress
COM	Completed – Used where enrolments of a course of study are spread across more than one term
IP	In Progress
WD	Withdrawn from Examination

## Procedure

Below is the Student Registry procedure detailing how classes and mark data are uploaded to CamSIS and subsequently posted to the record of students.

1. In Faculty/Department:
  - a. Final Examiners meeting occurs, Class List and mark book signed off;
  - b. Class and mark information uploaded into CamSIS by Administrator or Chairman via a mechanism called a Grade Roster;
  - c. Signed copy of Class List brought to the Student Registry.
2. Student Registry then performs the following checks:
  - a. Checks for discrepancies between the data uploaded and the hard copy list for consistency;
  - b. Checks made against student data such as candidates who withdrew, any lists as fails and footnotes applied to record;
  - c. Produces the University Class List and checks this against the original, student by student.
  - d. Counts number of students in each class within each list/subject;
  - e. Checks Examiners who have signed against those appointed;
  - f. Undertakes final check on similar names in different classes (Smith, Brown etc).
3. Once data confirmed, Student Registry
  - a. Posts classes to student record.
  - b. Updates date of publication in CamSIS, to allow the following query to be run:  
COL\_ALL\_REC\_EXAM\_RESULTS
  - c. Runs CamSIS process which emails a txt file containing the results specific to each college to that college's tutorial administration.
4. College receives the .txt file (showing USN and result code) and is a trigger for colleges to see what classes are now available in CamSIS.
5. Student Registry then:
  - a. Checks mark data for completeness and ensures grade boundary information has been supplied;
  - b. Once satisfied, marks are posted to student record;
  - c. Sends via email copies of the Class Lists published each day to Colleges

The timeframe for publication is as follows;

If Class List is delivered to Student Registry before 2pm, assuming no queries on list, classes will be posted to student record that day and Class List will be published to Colleges the same day.

If Class List is delivered to Student Registry after 2pm, if it was scheduled to be published that day, then every effort will be made to post results to student record that day and Class List published to Colleges the same day. If it is scheduled for publication on a subsequent day, then classes will be posted to student record and published on that subsequent day.

## Viewing and reporting exam result data

It is possible to view exam result data for a student in CamSIS in a several ways. Below are the two most common ways – screenshots of each are shown in Appendix A;

### Option 1:

- (i) Navigate to 360 Degree View (from main page, top right)
- (ii) Insert student USN / CRS-id / name and search to find your student
- (iii) Click on the 'Student Records' tab and scroll down the page until you come to the 'Term Summary'.
- (iv) Click on the term you want to see exam results for and they will be displayed under the 'Exams' box.

### Option 2:

- (i) Navigate to College Undergrad tutorial (from Main Menu)>Exams>Results/Degrees (this page can also be found under Records & Enrolment>Career and Program Information>Results/Degrees)
- (ii) Insert student USN or name and search to find the student.
- (iii) The first tab (Results) shows Classes by term only
- (iv) The second tab (Marks) shows paper marks by term
- (v) The third tab Prizes) shows any university prizes awarded
- (vi) The fourth tab shows degrees that have been awarded
- (vii) Navigate through these tabs to retrieve the information you need.

It is possible to extract exam result information from CamSIS in a number of ways. The following is a short list of CamSIS queries that colleges may find useful.

Query name	Prompt on	What's shown
SRS_EXAM_RSLTS	Exam term code and Exam code (eg ELT1)	Name, Class, Exam code and College
COL_ALL_REC_EXAM_RESULTS	Exam term code and actual publication date	USN, name, initials, college, exam code and Class for those subjects published on a specific date
COL_ALL_REC_EXAM_RESULTS_ALL	College	All exam results, all terms, all students (not just current)
COL_ALL_REC_EXAM_MARKS	Institution (this is always UCAMB); Exam code; exam term and college code	Per student and exam, class and mark breakdown by exam and term. Multiple rows per student.
COL_UGD_REC_EXAM_MARKS_ALL	Institution (this is always UCAMB) and exam term	All students exam class and mark breakdown by term. Multiple rows per student.
SR_GRADE_BOUNDARIES	Exam term and Exam code	The grade boundaries for that examination.

The Student Registry is aware that where marks are scaled or weighted, some colleges choose to make calculations on the mark information provided to provide percentages etc.

The Student Registry does not endorse this – the information on the student record is that which has been supplied by the Examiners as the final mark set. If colleges choose to make calculations on the marks, then they would not be endorsed by the Student Registry should a third party ask for verification.
